

## PETITION: Save Alaska's Wild Salmon, Stop the Pebble Mine

To: Nancy Sutley – Chair, Council on Environmental Quality and President Obama

I call on CEQ and President Obama to protect Alaska's Bristol Bay - the world's most productive wild salmon fishery - from the proposed Pebble Mine.

Alaska's wild salmon fishery is the economic engine for the region, supplying 14,000 American jobs, generating \$480 million a year, and sustaining the Alaska Native communities who rely on it as their primary source of food. It's a renewable resource that can provide our nation with a bounty of healthy food as long as we are responsible stewards.

Please take immediate steps to require the EPA to initiate 404c of the Clean Water Act to protect Alaska's Bristol Bay salmon fishery, and the wildlife, businesses and communities that depend on it.
