Subject: RE: Treatment Courses Follow-up

Ms. Timpson:

I am just reading this email chain. What in the world are you talking about? You are well aware you are to act as the liaison between these two units and that includes teaching these classes. Have you forgotten I sent out an email to the entire office announcing your position and your colleagues congratulated you as they know the significance of the role.

In the morning I need to know if you intend to carry out the duties of a liaison or not. If you are not going to do this than I will accept your resignation. At no time have I ever referred to you as a file clerk or told you that was your only duty. Please be truthful in your communications.

I am very disappointed that you would even attempt this line of communication. I need everyone on this team committed to the mission of this historic and gigantic undertaking.

I will see each of you at 9:30 in the morning to resolve this issue. Again I am extremely disappointed this team is even having this issue as you all together can do amazing things if each of you will come to work and be committed to the work.

Yours in service,
Fani T. Willis
District Attorney

Madam,

I need clarity regarding Amanda and which unit she is assigned. My understanding is she is being

shared between Record Restriction and Diversion. Our intent was to have Amanda teach some classes and any other duties designed by Ms. Henry. However according to the emails below, that is not Ananda's understanding.

I spoke with Ms. Henry tonight and she wants willing participants to work with and that doesn't seem to be Amanda

Please advise

Greetings Ms. Timpson,

No worries, please disregard the previously issued directive. I will complete the proposed task for teaching the Diversion courses and alert all needed parties of this change. The Behavioral Health courses are a vital part of the Diversion Program and to avoid any confusion, I will handle this task and restructure the teaching assignments to ensure the vision of Madam DA Willis is achieved.

Regards,

Epiffany P. Henry, MA

Greetings Ms. Henry, thank you for this email.

I had a few concerns I wanted to get clarity on. I never recall ever discussing the classes or my teaching them with Madam D.A. at any point. In fact when it was brought up in a meeting with Myself, Ms. Toole, Deonte and you during a late October internal meeting, I expressed I would be open/interested to assist in teaching however; as a file clerk, Madam has reiterated several times including her email received on 11/4 subject line " NO CONFUSUION" her desire for me to focus on filing record restriction and diversion docs as my sole/primary role. After our brief discussion you stated that you would at some point discuss the possibility of me teaching some of the classes . I just wanted to be sure that was clear. 11/17/21 was the first day Ms. Willis was made aware of this. I am happy to assist in teaching I just wanted to be sure the proposition was clear

Greetings Ms. Timpson,

Thank you for expressing a desire and passion for teaching the behavioral health course in the Diversion Program. After you expressed this desire during our October 2020 meeting with Madam DA Willis, we expressed a plan of action for the program curriculum. You be teaching the following courses: Taking The High Road and Thinking For Good.

As previously discuss the following action issues are needed to have a transparent listing of course offerings. The courses will be taught in 10 different module settings, to run 60-90 mins per sessions. I have requested that a schedule for November 2021 – December 2022 is completed, outlying proposed dates and times for the courses. It is my expectation that the two courses are taught twice weekly on two different week days during normal business hours with one late night session person course bi-weekly. Also, I would like both courses taught at minimum one Saturday a month. I will teach the Something for Nothing course (Theft course) at least one Saturday per month. I had the privilege of advising Madam DA Willis & Mr. Bonds of your assignment and joint enrollment with the Diversion Program. As previously discussed, please present these action items by COB November 19, 2021. It is my intention to have the three course launched in December 2021. Let's continue the amazing work.

Regards,
